## Stream

A compact  
chimney fan

# STREAM

## Stream

Big innovations come in all shapes and sizes. EONTOP's latest innovation comes in a rather practical size. The Stream is a compact yet powerful chimney fan.

Chimney fans offer the big advantage that even stoves with a (partially) horizontally installed flue system work properly. The Stream increases the speed of the flue gases up to an average speed of 8 metres per second. Instead of a flue system filled with smoke, the fire in the wood stove is now being stimulated by a constant stream of air.

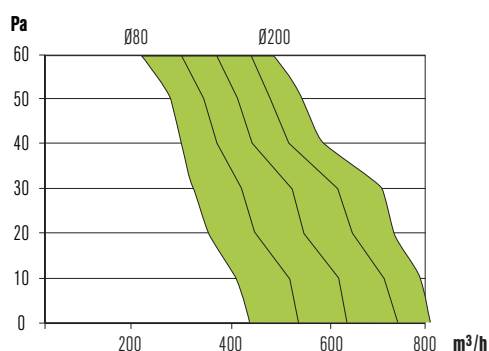

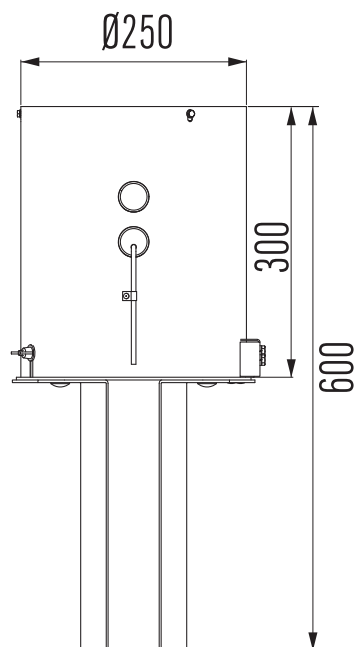

The Stream is a smart innovation that fits perfectly in our philosophy:

*Energy - Environment - Efficiency*

### Specifications

Basic principle:	Flue gas fan
Electric drive:	RPM: 1300, V: 1x230 Amps: 0,4, W: 37
Weight (kg):	9.5
Max. op. temp. °C:	250
Material:	1.4301
Dimensions:	For chimneys from D80mm to D200mm

# STREAM III

Ø80(min.)		Ø200(max.)	
Pa	m <sup>3</sup> /h	Pa	m <sup>3</sup> /h
10	406	10	780
20	306	20	723
30	330	30	701
40	300	40	588
50	275	50	532
60	230	60	475

# STREAM

## Accessoires Stream

- STK99** Rain cap
- STV99** Spark arrestor mesh
- STTR99** Electronic speed regulator
- STSP99** Spare parts E-material

[www.eontop.info](http://www.eontop.info)

## Electricity:

The Stream must electrically be installed by a local certified electrician according to local obligations (local rules). Ideally one uses a plug and a switch (it can be obligatory to install a certified maintenance switch). If desired one can apply a speed adjuster (to adjust the revolutions).
